Salt Lake City, UT 84114

Dear Mr. Jensen:

Staker & Parson Companies requests to extend the Beck Street Slope Stability Study and Analysis, and the Beck Street Reclamation Plan Amendments due date of June 28, 2005 to August 31, 2005.

Again, the above average amount of moisture received this spring has hindered the ability to place equipment on site and perform the Study. The Study is currently underway by IGES. I have contacted IGES and they are confident the Study will be finished by the first part of August. Upon receiving the data, we will then get with JBR and incorporate the findings into the document requested by DOGM.

We appreciate your patience. Please notify me if you have any further questions.

Sincerely,

Staker & Parson Companies

Michael Dalley
Environmental Affairs
